## Stay ahead of the Changes to USP 621 with Agilent

We are excited to invite you to our upcoming live panel talk on the latest updates in the pharmaceutical industry, featuring a special focus on USP 621. As you know, USP 621 is a critical method for testing drug substances and products in the pharmaceutical industry, and staying up-to-date on the latest developments is essential for maintaining compliance and ensuring quality.

During this webinar, our expert panel will discuss the latest USP 621 updates and how they impact the pharmaceutical industry. We'll cover key topics such as method validation, system suitability, and data integrity, and provide practical tips and insights for navigating these important issues.

Whether you're a regulatory affairs professional, quality control specialist, or lab manager, this webinar is an essential opportunity to stay informed and up-to-date on the latest trends and best practices in the pharmaceutical industry. Don't miss out on this valuable opportunity – register today and join us for this informative and engaging live panel talk.
